## **2020 New York State Senate & Assembly Election Questionnaire**

### **About Us**

Launched in 2017, Voters For Animal Rights (VFAR) is a New York based 501c(4) grassroots multi-issue animal advocacy organization that is building political power for animals. In 2019, VFAR led the successful campaign to ban foie gras in NYC, and to stop wild bird poaching. We also led the campaign to ban the use of wild animals in circuses in NYC. We look forward to working with you to win more victories for animals and make the state of New York a leader in compassionate public policy.

Our mission is to elect candidates who support animal protection, lobby for stronger laws to stop animal cruelty, and hold elected officials accountable to humane voters. VFAR mobilizes public concern for animals through the political process. We know that animal protection is not only a moral issue but a bi-partisan political issue as well. Over 90% of Americans believe that animals need protection from abuse and exploitation. To that end, we organize humane voters to support candidates that care about animals. If you support animals, then we want to support you! There are over 60,000 humane voters throughout New York state, hundreds of which are volunteers for VFAR who are ready to knock on doors, make phone calls and get out the vote to elect people who will stand up for animals. We deliver the vote – for the animals and for you.

As an example, here is our [animal-friendly voter guide](#) from the 2019 NYC Special Election for Public Advocate.

### **Endorsement Process**

Candidates seeking our endorsement for the New York State Assembly and Senate are **required** to fill out this questionnaire and submit to [woof@vfar.org](mailto:woof@vfar.org) by May 22, 2020. *Please let us know if you need more time.*

### **Questions**

If you have any questions about the topics in our questionnaire, please don't hesitate to reach out to [allie@vfar.org](mailto:allie@vfar.org) and [david@vfar.org](mailto:david@vfar.org). We are happy to help you better understand animal protection policy, and we're happy to advise your campaign.

*Allie Feldman Taylor, David Karopkin, Esq., Julie Cappiello, Joyce Friedman, Heather Greenhouse, Kathy Nizzari, Michelle Aptman*

**Candidate Contact Information & Campaign Information**

Candidate Name: Katherine P. Walsh      Pronouns she/her      Cell Phone [REDACTED]  
Email: [REDACTED]

Campaign Manager Astrid Aune      Pronouns she/her      Cell Phone [REDACTED]  
Email [REDACTED]

District: 51

Party: Democrat

Office Sought: State Assembly

Name of Campaign Committee: Friends of Katherine P. Walsh

Campaign Field Office Address: PO Box 1221, New York, NY 10159

Campaign Website: [www.katherineforassembly.com](http://www.katherineforassembly.com)

**Personal Initiatives**

1. Do you feel that promoting the humane treatment of animals should be a priority for the New York State Legislature?

**I believe that the way that we treat animals as well as our environment is a litmus test of our ethical behavior as human beings. As such, it is important to promote humane treatment of animals as part of the New York state legislature**

2. Do you have any achievements to date on humane issues, e.g. supporting humane legislation, adopting a shelter pet, volunteering with an animal rescue organization, supporting any national or local animal protection orgs, living a plant-based (vegan or vegetarian) lifestyle, etc.? Did you grow up with or currently live with any companion animals?

**I gave up eating meat at the age of 16 after watching PETA videos at my best friend's house and saw what factory farming did to the animals and humans. It was at the same age that I read "The Jungle" by Upton Sinclair in my junior year American history class. I was struck by the way the meat industry operated then and how poorly workers were treated. It was written over 100 years ago but sadly, much of those inhumane practices still exist. Now we read about workers in chicken factories needing to go into work with COVID. How much has really changed? Plus, we know we need to move to a plant based diet if we are to truly tackle the challenges we face by climate change. If you care about worker's rights, racial justice and**

**VOTERS FOR  
ANIMAL RIGHTS**

786 Jefferson Avenue  
Brooklyn, NY 11221  
vfar.org

**climate change, you should stop eating animals. Also, I grew up with cats who have provided my family with much needed comfort to my family, especially during difficult times.**

3. What animal issues will you prioritize and lead on as a member of the NYS legislature?

**One issue that I would prioritize, both because of its impact on animals and our broader environment is factory farming. Most of the statutes on animal cruelty in New York State are over 100 years old and need to be updated. They do not reflect our improved understanding of animal cognition or the cultural evolution of our attitudes towards animals of the past 100+ years.**

**The current model incentivizes cruelty to animals and farm workers, disease outbreaks such as e-coli as well as widespread environmental degradation and carbon emissions. I would like to see New York State promote local agriculture and its small farmers against giant multinationals corporations. I would promote legal frameworks aimed at ensuring farm animals have humane living conditions, that farms with good environmental and social practices are rewarded and ban meat products that are unwilling to demonstrate that they meet this standard. We need to incentivize behavior that promotes the wellbeing of both animals and people in New York State.**

**I also think New York State should promote its locally grown produce through marketing campaigns to the public and in public schools, as well as increased consumption of produce as part of a healthy lifestyle.**

**COVID-19 epidemic has also exposed the fragility of the United States' food system and now raises fundamental questions about how our food systems have contributed to the epidemic and how future food systems can build resiliency, food security and improve human and planetary health. Cities and citizens are increasingly realizing the connection between health, equity and climate change. Food lies at the heart of the necessary solutions to tackle climate change, reduce water stress and pollution, deforestation, restore lands, protect the world's biodiversity and improve human health. We cannot expect individual citizens to have the capacity to ensure that their food/dietary choices will protect them, their families and their planet. To truly transform our urban food systems, state leadership must bring all stakeholders together to address the negative externalities of the system. I would advocate for legislation to tackle procurement policies and programs that incentivize low-carbon foods, sustainable and regenerative agricultural practices from their suppliers and which are applicable in the local context to implement.**

**VOTERS FOR  
ANIMAL RIGHTS**

786 Jefferson Avenue  
Brooklyn, NY 11221  
vfar.org

4. Will you commit to having a designated person in your office to handle animal issues?

**Because environmental sustainability and animal welfare are priorities for me, I would personally like to handle much of these issues and will certainly have well informed staff that can address these issues as well.**

5. How would you work to empower the animal advocacy community to reach new success and growth into the 2020-2022 term, and ensure that New York is on the forefront of animal protection?

**First of all, my door would always be open to animal advocacy groups to discuss their concerns with me. I would want to include animal welfare into the broader discussion of environmental sustainability from which it is often left out. I want to promote positive examples of ethical food production and make sure we curb bad actors' behavior through strong, statewide market incentives.**

### **Positions on Legislation and Policy**

#### **1. Companion Animals: Pet Stores**

With thousands of homeless animals waiting for loving forever homes in shelters and rescues all over New York State, why should pet stores and breeders be allowed to profit off the backs of animals? The puppy and kitten mill/pet store connection create lives of misery from beginning to end. Breeding facilities and pet stores have repeatedly been found to have poor sanitation, infectious disease, animals overcrowded in cages with no exercise, lack of proper veterinary care, lack of protection from harsh weather conditions, and lack of adequate food and water. These conditions result in great suffering, and many sick animals are sold to unaware consumers. [More info here.](#)

***Would you cosponsor and vote for S4234A/A6298A (Gianaris / Rosenthal) which would ban the sale of dogs, cats and rabbits in pet stores unless they come from a shelter or rescue?***

**YES / NO**

**Additional Comments:**

**There is no reason for this unnecessary cruelty especially when there are so many animals that do not have homes. California and Maryland have already passed similar legislation and so can we.**

#### **2. Animals Used for Fashion: Fur**

**VOTERS FOR  
ANIMAL RIGHTS**

786 Jefferson Avenue  
Brooklyn, NY 11221  
vfar.org

Fur farms breed and confine animals in tiny, filthy cages where they suffer intense stress and unimaginable cruelty. They are beaten, bludgeoned, electrocuted, and skinned alive. Trapping animals in the wild is no better — animals are trapped in cruel leg hold traps where they can suffer for days in excruciating pain — starving, until a trapper returns to shoot or bludgeon them to death. Coyotes are known to attempt to chew off their own legs trying to break free. Many other animals are unintentionally caught and killed in these traps, including household pets. California has enacted a ban on the sale of fur. Several countries such as Norway, Croatia, Czech Republic, Germany, Japan, and the U.K. have taken steps to close fur farms. With public awareness and innovative alternatives on the rise, many popular designers have stopped using all animal fur. There are ethical alternatives to fur which are not only stylish and warm but environmentally friendly. More info [here](#).

***Would you cosponsor and vote for A5040 (Rosenthal), that would ban the sale of new apparel products using real animal fur?***

**YES / NO**

**Additional Comments:**

**Yes and if people really want to wear animal fur, there is plenty of it out there already that can be reused. No more animals need to suffer for this unnecessary product.**

### **3. Animals Used in Entertainment**

#### **A. Rodeo Cruelty**

While New York State has limited the use of animals in circuses and other entertainment, rodeos have been left unregulated despite the display of similar, and in many cases more egregious, acts of cruelty. Rodeos typically include an event called "calf roping" where [baby calves are shocked with electric prods](#), forcing them to run as soon as the holding chute opens, only to be "clotheslined" with a rope and tied at the legs. Panicked calves are routinely injured or killed during these performances. Rodeos also continue to use flank straps or bucking straps, which are tightly fastened around the animal's abdomen and may be used with sharp-ened spurs to cause pain to the animal, encouraging them to buck more violently. Rodeos are responsible for causing death or serious injury to countless animals, all for the sole purpose of entertainment and showmanship.

***Would you cosponsor and vote for A8554/S7971 (Rosenthal/Addabbo) which would prohibit these practices at rodeos?***

**YES / NO**

**Additional Comments:**

**There is no justification for this type of cruel treatment of animals just for our entertainment.**

**VOTERS FOR  
ANIMAL RIGHTS**

786 Jefferson Avenue  
Brooklyn, NY 11221  
[vfar.org](http://vfar.org)

**B. Animal Circuses**

Circuses that use animals have been cited as a source of cruelty and exploitation for animals. Even if the basic levels of care and protection that the federal Animal Welfare Act demands are met, circuses force wild animals to languish in cages while travelling from performance to performance, without ever having the opportunity to exercise natural behaviors. Worse, time after time we see reports of [circus animals being beaten and whipped](#), having their limbs tied together to facilitate training, being shocked to ensure compliance, not being provided with adequate food, water and shelter, and other instances of cruelty.

***Would you cosponsor and vote for A3673/S7971 (Englebright/Martinez) which would prohibit the NYS Department of Environmental Conservation from issuing permits or licenses that would authorize wild animals to appear in circuses?***

**YES / NO**

**VOTERS FOR  
ANIMAL RIGHTS**

786 Jefferson Avenue  
Brooklyn, NY 11221  
vfar.org

### **C. Carriage Horses**

Advocates have long called out the poor working and living conditions for horses used for NYC carriage rides. As recently as March 2020, a 12-year-old horse was euthanized after [collapsing in Central Park](#), a tragic incident that was captured on video camera by a horrified pedestrian. Despite improvements implemented over the years, these horses are still forced to travel through NYC traffic to get to and from Central Park, they work long days sometimes in extreme weather conditions, with no opportunity for daily turnout. Over the course of the past three decades, there have been countless incidents and accidents involving New York City carriage horses and many have died on the streets of NYC or been sent to slaughter once they are unable to continue working.

***Would you cosponsor and vote for legislation to ban horse carriages in New York City?  
YES***

#### **Additional Comments:**

**Multiple cities across the country have already banned horse-drawn carriages, including Chicago, Santa Fe, Las Vegas, Reno, Camden, Biloxi, Salt Lake City, Key West, Palm Beach, Pompano Beach, and Treasure Island.**

### **4. Animals Used for Experimentation: School Hatching Projects**

Principals and school teachers should end the use of bird-hatching projects and replace them with learning activities that teach life processes without the use of live animals. School classroom incubation and hatching projects of baby chicks and ducks is cruel and leads to the abandonment and death of countless young birds each year. Once the eggs develop and the cute baby birds grow up, schools realize that they have no plan for the adult birds. These hatching-project birds are deprived of a mother hen. The birds are often abandoned in city parks where they cannot survive on their own or dumped at local animal shelters and rescues who are already overburdened with unwanted animals. Hatching projects encourage the view that animals are disposable objects instead of living creatures requiring a lifetime of care and commitment. Humane alternatives have been developed by the United Federation of Teachers (UFT), HEART, and humane educators. More info can be found [here](#) and [here](#).

***For Assembly candidates: Would you cosponsor and vote A0058 (Rosenthal) that would prohibit schools from using eggs, live baby chickens and ducks for classroom projects? YES***

***For Senate candidates: Would you introduce or cosponsor legislation a senate version of A0058 that would prohibit schools from using eggs, live baby chickens and ducks for classroom projects?***

**YES / NO**

vfar.org

## **5. Factory Farms, Live Animal Slaughter Markets and Transportation**

There are more than [600 factory farms](#) in New York State, confining animals and engaging in heinously cruel practices such as castration of pigs, cows, and other mammals without painkillers, “debeaking” or “beak cutting” of chickens and turkeys without painkillers, confinement of egg-laying hens in battery cages, confinement of baby cows in veal crates, and confinement of pigs in gestation crates. These factory farms are degrading the environment and poisoning our communities.

There are also [80+ slaughterhouses and live animal markets in NYC](#), in all five boroughs – more than any other U.S. city. These facilities in New York are no different than the live animal markets abroad where Coronavirus started. In addition to brutally cruel treatment of the animals (tiny cages, no vet care, severely limited food and water), these storefront facilities pose a significant health and safety hazard to the community affecting the quality of life for neighborhood residents. Blood, feces, urine, dismembered body parts, and feathers are routinely found on our public sidewalks and streets due to the unsanitary conditions associated with storefront slaughterhouses. They are also a breeding ground for infectious diseases — avian flu has been found in many NYC live animal markets. Many of these slaughterhouses are located close to schools and playgrounds. Additionally, when large animals such as cows, bulls, and goats escape (as routinely happens), including during transport, it puts us all in danger, even causing a [multi-hour traffic jam on the Verrazano Bridge](#). Sometimes these animals are allowed to be rescued by a farm animal sanctuary but most often they are killed.

***Especially in light of pandemics that originate from crowded, unsanitary live animal markets, would you support a permanent ban on the operation of all factory farms and live animal markets in New York?***

**YES / NO**

**Additional Comments:**

**Addressing factory farming will be a legislative priority for me.**

***Would you cosponsor and vote for legislation to ban confining animals and other cruel practices such as (a) castration of pigs, cows, and other mammals without painkillers, (b) “debeaking” or “beak cutting” of chickens and turkeys without painkillers, (c) confinement of egg-laying hens in battery cages, confinement of baby cows in veal crates, and (d) confinement of pigs in gestation crates?***

**YES / NO**

**Additional Comments:**

***S6252/A8009 (Gianaris/Weprin) is legislation that would renew the state moratorium prohibiting new licenses for slaughter facilities in NYC. It has passed both houses. Will you reach out to Governor Cuomo and ask him to sign the bill?***

**VOTERS FOR  
ANIMAL RIGHTS**

786 Jefferson Avenue  
Brooklyn, NY 11221  
vfar.org

**YES / NO**

**Additional Comments:**

***Would you cosponsor, support and vote for legislation to require that any animal who escapes a slaughterhouse or transport vehicle be released to an animal sanctuary or other rescue?***

**YES / NO**

**Additional Comments:**

## **6. Food and Health**

### **A. Dairy Subsidies and transition to plant-based suppliers in New York State**

Milk and other dairy products are top agricultural products in New York State, but demand for and sales of dairy products in the U.S. have dropped precipitously in recent years, while sales of non-dairy milks have grown substantially. This change comes as more research and information illuminate the harmful effects of dairy on adult and children's health, the environment and animal welfare. Regardless, the quality of individual animal care offered by a given farm, dairy production necessarily involves farmers taking newborn calves from their mothers, who bellow and chase after them. Instead of a mother's milk going to her babies, her calves are taken to veal farms where they are kept isolated in small plastic huts in rows upon rows. Perhaps worst is that forcibly impregnating, tail docking, and beating downed cows are standard practices on NY dairy farms. Former dairy companies like long-time New York producers like Elmhurst Dairy are making the switch to non-dairy products. New York based companies offering healthy food, yet every year taxpayers subsidize New York's dairies with as much as \$60 million in credits.

***Would you support ending or reducing the immense subsidies that New York provides dairy farmers, and reallocating them to plant-based initiatives?***

**YES / NO**

**Additional Comments:**

**Subsidies are problematic in general, but we want to find a way to support small family run businesses that have provided for generational stability. I'd want to develop a transition plan over time to give these farms the financial security and stability to transition since so many are already barely cost covering under existing conditions.**

### **B. Food Labeling**

**VOTERS FOR  
ANIMAL RIGHTS**

786 Jefferson Avenue  
Brooklyn, NY 11221  
vfar.org

***Would you support legislation to require that any food products sold in New York must be labeled with information detailing the sourcing of the animals and the conditions the animals were raised in and requiring restaurants provide such signage?***

**YES / NO**

**Additional Comments:**

In Europe, regulations require “genetically modified” labeling for food products consisting of, containing, or produced from GMOs. This could mimic a similar requirement. Think we could also phase in the approach to allow for small businesses to comply.

**7. Protecting New York’s Wildlife**

**A. Wildlife Killing Contests**

Animal killing competitions are publicly held contests where the person or team who has killed the most animals, or the heaviest or largest animals is crowned the winner. In animal killing competitions, individuals compete to kill the most animals, the heaviest animal, or the largest animal. [Competitions such as these are inhumane and provide incentive to killing animals for glory, prizes or titles.](#) In many cases, these competitions are conducted in a party-like atmosphere and are more like slaughters or massacres and are unsportsmanlike. These competitions are considered cruel by many hunters.

***Would you cosponsor and vote for [A.9775/S.4253B](#) and A.722B/S.7542 (Glick / Martinez) to ban killing contests in New York State?***

**YES / NO**

**Additional Comments:**

**B. Wildlife Management**

New York is home to an immense diversity of wildlife, whether in urban, suburban or rural areas. Even New York City’s five boroughs are home to hundreds of species, including geese, deer, squirrels, ducks, raccoons, opossum, coyotes, hawks, eagles, whales, dolphins, seals, turkeys, beavers, bats, pigeons, rats, migratory birds, and so many more species. While many animals inhabit New York year round, other species pass through on their annual migrations. USDA Wildlife Services is a federal agency notorious for exterminating millions of wild animals across the country in cruel manners, while ignoring and undermining humane approaches to coexisting with wildlife in New York. Examples of humane wildlife management practices include: Instead of killing Canada geese to reduce the threat of “bird strikes”, nests are now being treated as a birth control method. In Staten Island, a deer vasectomy program was instituted as a more humane and

**VOTERS FOR  
ANIMAL RIGHTS**

786 Jefferson Avenue  
Brooklyn, NY 11221  
[vfar.org](http://vfar.org)

effective approach to stabilizing the population, and turkeys were relocated to a sanctuary in upstate New York to avoid being slaughtered.

***Do you support New York City's [WildlifeNYC program](#), aimed to promote awareness, tolerance, coexistence, and understanding of urban wildlife? If you don't represent NYC, would you support a similar program for your district? How do you view our relationship to wildlife in New York State?***

**YES / NO**

**Additional Comments:**

**VOTERS FOR  
ANIMAL RIGHTS**

786 Jefferson Avenue  
Brooklyn, NY 11221  
vfar.org

***Do you oppose lethal management initiatives for “nuisance” wildlife such as Canada geese, deer and turkey populations that result in the cruel and needless killing of these animals in New York’s parks by government contractors particularly where there are demonstrated non-lethal and humane alternatives that can be applied?***

**YES / NO**

**Additional Comments:**

***If there are non lethal options available then yes.***

***Currently there is only one brick and mortar wildlife rehabilitation center in New York City, the Wild Bird Fund. Would you support funding initiatives to expand New York City’s capacity for wildlife rescue and rehabilitation?***

**YES / NO**

**Additional Comments:**

## **8. Legal Rights for Animals**

In 2018, in a decision denying a habeas corpus claim brought on behalf of [two chimpanzees who had been kept for decades in small cages in a warehouse](#), Justice Eugene M. Fahey of the New York Court of Appeals issued a concurring opinion stating the following:

“To treat a chimpanzee as if he or she had no right to liberty protected by habeas corpus is to regard the chimpanzee as entirely lacking independent worth, as a mere resource for human use, a thing the value of which consists exclusively in its usefulness to others.... While it may be arguable that a chimpanzee is not a “person,” there is no doubt that it is not merely a thing.

***Do you believe that any animals should have an individual legal right to bodily liberty, and if so, would you support legislation that establishes such a right?***

***That animals might have rights of their own is a new idea. our law has historically considered pets, or companion animals, to be property—akin to a rug or a toaster. Two states, Illinois and Alaska have started to consider animals as “sentinel” beings. I would want to review this legislation to understand the parameters.***

**YES / NO**

**VOTERS FOR  
ANIMAL RIGHTS**
